

# Chemigation Site Master List

Chemigator's name	Chemigation certification #	Certification expiration date

Use these tables to keep track of your chemigation sites. When completing an application record, you can save time by referencing this table. Each page allows you to record two (2) injection sites. Draw a diagram of each injection site and its treated area in the spaces provided, then fill in the information below each diagram.

**Posting signs:** When applying any RUP or pesticide whose label requires sign posting, you must post signage at each "usual point of entry," and at the point of chemical injection (if outside the treated area). By marking each point of entry (and, if necessary, the chemical injection point) with a (\*) on the diagram, you can create an easy guide for posting signs at each site.

<b>Injection Site # ___</b>		<b>Injection Site # ___</b>	
<b>Injection Site # ___ location</b> (township, range, section, quarter, quarter-quarter)		<b>Injection Site # ___ location</b> (township, range, section, quarter, quarter-quarter)	
Permit on file?	Y / N	Permit on file?	Y / N
